Message from the Minister

It is with pleasure that I offer the latest Prince Edward Island Seafood Products Directory. This Directory is designed to enhance your knowledge of the quality seafood products available from our Province and provide specific information on the producers who supply these products to the marketplace.

The seafood industry is extremely important to the economy of our Province. In 2000, over 140 million pounds of marine resources were harvested with a landed value in excess of 135 million dollars. The industry strives to maintain the importance of this industry by providing premier quality products which are marketed world wide.

The wide variety of resources landed on a daily basis by our Provinces' fishers together with those raised through aquaculture are processed in the most modern and up to date processing facilities. I am sure you will be pleased with your choice of seafood products from our Province.

I ask that you contact our Department or the office of PEI Business Development Inc. should you require further information. We will be glad to answer your inquiries.

J Chester Gillan

Honourable J. Chester Gillan
Minister

Seafood Products Directory

This Seafood Products Directory is published by the Fisheries and Aquaculture Division of the Prince Edward Island Department of Fisheries, Aquaculture and Environment.

The directory is an alphabetical listing company names, as well as contact person and products processed by species. *(The information has been supplied by participating companies.)* Further information may be obtained by contacting the following:
